The Ontario Police Department recently partnered with Ring Doorbell to assist with our investigative and crime suppression efforts. Ring has granted us access to their Law Enforcement portal and will be conducting in-person training for detective personnel on **Thursday 9/12**. The training will take place in the **EOC at the City Hall Annex** in two separate sessions; **10-1100 hours and 11:30-12:30 hours**. Each session will be limited to 12 detectives given the number of available computer terminals. We would like for each detective to attend this training as it is a great investigative tool that can assist you with your cases. Please respond with your preferred time and we'll try and accommodate. First come first serve fellas. Let me know if you have any questions. Thanks!
